Altura Luxury Helm; Our new brand focused on elevating comfort and user experience with the next step in helm innovation, representing the pinnacle of excellence in marine seating. Each Altura seat model, proudly made in the USA, is a masterpiece of quality craftsmanship, constructed from the finest & most durable materials. Offering a range of bespoke elements and customization, Altura is the definitive choice for premium boat builders who demand flawless form and function.

ALTURA LADDERBACK HELM SEAT

REDEFINING THE FUTURE OF LADDERBACKS

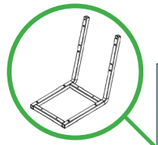
- Uniquely supported ladderback with embedded stainless-steel framing.
- Eliminates deflection while increasing durability, compared to structural teak designs currently in the market.
- Modular seat construction, designed for ease of service and increased warrantability.

IBEX 2025 INNOVATION AWARDS WINNER

ALTURA LADDERBACK BENCH

SPACIOUS AND RE-IMAGINED

- Modular seat components allow for easy scalability.
- Featuring an integrated seat suspension system for unparalleled comfort.
- Center drop-down armrest with cup holder and solid teak inlay.
- Available with optional heating and cooling capabilities.
- Upgraded exterior stainless-steel bolster actuating brackets.
- Available with solid teak armrests and bolster hinge covers.



COMPARISON TABLE

	STRUCTURAL	BACKREST	COMFORT
ALTURA HELM	Full stainless steel structural frame assembly with no deflection.	Fully integrated backrest.	Internal seat suspension with added lumbar support.
COMPETITORS' LADDERBACKS	Critical mounting points reliant on teak strength.	Back cushion fastened with thin plastic snaps.	Foam-on-board construction, with stiff bottom and backrest.
