

## **‘Unforgettable adventures’ with Chris-Craft and Infinity Luxury Woven Vinyl'**

It's no exaggeration to say that Chris-Craft perfected the art of boat building. For nearly 150 years they've been building boats with a timeless design that's instantly recognizable across the globe. Whether it's hand-selected teak or stainless steel burgee holders and trumpet horns, Chris-Craft is using the highest quality materials to design and build boats marked by beauty and style.

Starting this model year, Chris-Craft boats will feature yet another high-performance product that's both durable and versatile, and of course, beautiful — Infinity Luxury Woven Vinyl. We're thrilled to partner with this iconic company as they continue to differentiate themselves in the industry and deliver some of the best boats on the water today.

At Infinity, we believe our flooring is a luxury that suits boaters, so partnering with such an iconic brand like Chris-Craft — one of timeless luxury — is only natural. So to all the boaters about to hit the open ocean for an “unforgettable adventure” on their new Chris-Craft boat, we can't wait to hear the stories you bring back.

To learn more about Chris-Craft visit their website and request a brochure today.
