**View Armstrong Outboard Brackets,
RIB Ladder and Telescopic Ladder
At The IBEX 2020 Online Experience
September 29 – October 2**

STUART, FLORIDA (USA) – The Armstrong Nautical Products virtual booth during the IBEX 2020 Online Experience next week will feature Armstrong outboard motor brackets, the award-winning Armstrong RIB Ladder and the Armstrong Center Pole Telescopic Boarding Ladder.

Armstrong positive flotation outboard motor brackets, the choice of leading boat builders (including Formula and Regulator, shown above), optimize the performance of today's powerful outboards for lower fuel consumption, a drier ride and better handling – even under the most demanding conditions.

Whether backing down on a big fish in open water, loading up your boat for a weekend dive trip or just holding your own in a following sea, Armstrong brackets are engineered to improve performance, usability, safety and seaworthiness.

The Armstrong RIB Ladder, winner of a DAME (Design Award METS) in the Life Saving and Safety Equipment category, makes it easy and safe to board any Hypalon, PVC or polyurethane RIB.

The RIB Ladder maintains an easy-to-climb outward angle, supports over 400 pounds (182+ kg) and mounts on the RIB surface, so there are no holes in the pontoons. Rubber stand-offs help protect the surface of the mother ship. The marine grade stainless steel, telescoping ladder folds compactly for storage. Soft mounting hardware, also sold separately, allows for multiple mounting points on a RIB.

The Armstrong Center Pole Telescopic Ladder is easy to climb - even with fins. Extra wide, flat steps with molded tread are comfortable to use. Attaches beneath swim platform or inserts into larger platforms. Also available in deck mount and transom mount, 3 step and 4 step version. Easily deployable from the water. Supports 400+ pounds (182+ kg). Jewel-like 316 stainless steel. Telescopes compactly for storage.

For more information about Armstrong outboard motor brackets, RIB Ladder, Center Pole Telescopic Boarding Ladder and other Armstrong Nautical products, visit the Armstrong virtual booth at IBEX 2020 or www.armstrongnautical.com , or call 1+772.286.7204.
