## Sileather® to Launch Capri V2. Offering More Colors and Styles

Atlanta, GA Sep 23, 2022 - Sileather® is a cruise ship and marine grade high-performance vegan leather, coated with 100% silicone. As a marine vinyl alternative, Sileather® is stain-resistant, inherently water and UV resistant, durable, and can provide you with a luxuriously soft touch. We are a B2B supplier and serve both OEM boat manufacturers and upholstery shops. Sileather® has been in the marine industry since 2016. We offer a wide range of colors and textures with only 3 business days to process and ship out for domestic shipping. Sileather® can be used for Marine interiors and exteriors.

### Sileather® Marine

Sileather® has been in the North America Marine industry since 2016. Sileather® collections have passed and exceeded the Marine industry standard. With its unique silicone properties, Sileather® has provided an alternative to traditional marine vinyl. In 2019, Sileather® has been certified with the Lloyd's Register, globally renowned certification for cruise ship qualifications.

In 2020, Sileather® joined as a proud member of National Marine Manufacturers Association (NMMA)

In 2021, Sileather® launched **Capri**, a collection designed and formulated specifically for the challenging marine environments to offer the ultimate UV resistance and performance. Capri originally included 30 colors and 3 styles. Now we are expanding this popular collection to **55 colors** and added a new **Carbon Fiber** style named "Link". Capri v.2 will be available by end of 2022.

### **About Sileather®**

As a leading developer of silicone materials, the Siotech group has 35 years of experience and multiple patents on silicone formulations and silicone textiles. After years of development, Sileather® was officially launched in 2013. It is the first 100% silicone coated fabrics supplier in the Marine industry.

Sileather®, as the pioneer of 100% silicone leather, redefines high performance fabrics by combining the texture of leather with the superior performance of silicone through its innovative technology. We are committed to promoting sustainable development in textiles industry, striving to achieve carbon neutrality, and taking the silicone leather industry to a whole new level.
