

CONVERTIBLE DRINK CADDY

Ocoee, FL – September 22, 2022 –

Teak Isle offers a new convertible drink caddy that accommodates everyone's drink of choice. This innovative, patent pending design holds wine glasses or coffee mugs, and has adapters to convert to securely hold skinny cans or water bottles. President of Teak Isle, Pat Brown said, "Wine glasses will no longer spill and skinny cans will no longer fall over like in traditional cup holders. This one compact convertible drink caddy grips them all securely."

There is additional space for a wine chiller, corkscrew, bottle stopper, and cell phones. The slim design has a non-skid bottom pad, creating stability which allows it to sit securely on top of seats, on a sundeck or on an ottoman without slipping, making it the perfect choice for an evening lake cruise or a visit to the sand bar. There are straps included to keep the drink caddy in place in rough water. Measuring only 7 ¼" W x 15" D x 8" T the caddy fits almost anywhere, can be easily moved from place to place on the boat, and can be stored in the smallest of spaces.

####

Teak Isle Mfg. is the trusted source for CNC cut OEM plastic and wood component parts for over 200 boat builders. With an engineering staff of 18 and over 300 team members running 11 CNC routers, Teak Isle works with builders from design concept to on-time delivery of high-quality custom parts. Products include cabin entry doors, laminated cabinetry, Corian countertops, access doors, bent acrylic sliding doors, and King StarBoard HDPE parts.
