

## Eastern Metal Supply and Tigress Outriggers & Gear Exhibit Once Again at IBEX in Booth 750

For many years Eastern Metal Supply has been exhibiting at the International Boatbuilders Exposition and Conference. This year is no different and EMS will be there with an increased presence along with many new products from their Tigress Division.

While Tigress' products target the sports fishing market with many innovative products, EMS' product lines bridge numerous portions of the Marine Trade market place.

We look forward to a robust turnout where we can assist all types of boat builders, tower accessories manufacturers, dock builders, bimini top builders and more with all things aluminum.

Please visit us in Booth 750 on October 2 – 4, 2018.
