

Create the Extraordinary with Sunbrella® Horizon

ABOUT HORIZON

Sunbrella Horizon is an engineered synthetic leather fabric that offers revolutionary performance against microbial pinking for all boating enthusiasts. Available in a range of beautiful styles and patterns, the product is built to last without compromising on style. From the sun lounge of a yacht to the pilot seat of a pontoon or tow boat, Horizon is suitable for a range of marine upholstery applications – and gives boaters performance they can trust on the water.

WHY HORIZON?

- Proprietary technology offers the best protection against microbial pinking in the industry
- Only product in the marine industry with a three-year warranty against microbial pinking
- Resistant to bacterial staining, cold cracking and excess stretching
- Highly UV-stable pigments allow for optimal color retention over time, with strong protection against fading from sunlight
- Durable and luxurious; the ultra-soft feel enhances comfort
- An easy-to-clean, “wipeable” fabric that stops messes once they hit the surface
- Knit-backed construction for easy fabrication
- 30 styles, 23 colors and two embossing patterns to choose from

PRODUCT GUARANTEE

- Horizon carries a five-year product warranty to cover loss of strength or color that results from normal exposure to the sun and water elements. Horizon also offers an industry-leading three-year microbial pink staining warranty.
- Sunbrella knows the time, investment and heart required to craft the perfect boat. For this reason, Horizon goes beyond product warranties to cover labor costs. Any claim made within the first three years is eligible for up to \$40 in labor costs per linear yard in addition to replacement product.

About Sunbrella Fabrics

Sunbrella has revolutionized the way the world thinks about how fabrics look, feel and perform. Sunbrella Marine fabrics are designed to perform, look good and last on the water. With canvas and upholstery offerings, Sunbrella boaters expect proven durability, waterproofing, UV protection, fade resistance and bleach cleanability. Led by a global design team, premium Sunbrella fabric gives boaters, OEMs and fabricators the materials they need to create the extraordinary in marine applications.
