September 15, 2021

QUALITY THREAD & NOTIONS TO SHOW PREMIER THREAD FOR THE MARINE INDUSTRY AT IBEX 2021

Quality Thread & Notions is exhibiting at the IBEX 2021 Show at the Tampa Convention Center September 28th-30th, Booth 3-1946. QTN's leading thread lines for the marine industry will be displayed: SolarFix[®] PTFE, Sunguard+ UVR Bonded Polyester, and Vision UV Resistant Embroidery Thread. New stocking colors in SolarFix[®] PTFE will also be revealed.

Quality Thread & Notions provides personalized service and the highest quality marine thread and notions. Product experts will be available to answer all your questions and provide demonstrations.

Our premier threads stay strong and vibrant even while exposed to extreme weather and cleaning chemicals. With a large variety of vivid colors and color matching services, we can help designers and naval architects achieve their vision.

Brand offerings include:

SolarFix[®] - a Premier PTFE Thread perfect for outdoor applications that have high exposure to sun, weather, or cleaning chemicals.

Sunguard+ - a Superior UVR Bonded Polyester Thread ideal for outdoor or interior applications that have moderate exposure to sun, weather, or cleaning chemicals.

Vision - an Excellent UV Resistant Polyester Embroidery Thread perfect for applications where embroidery is exposed to sun.

Polypropylene Webbing – repels water, UV resistant.

Polyester Hook & Loop – resistant to mildew, stretching, and shrinking.

YKK[®] Marine Zippers – designed to resist damage from sunlight and corrosion.

“We are looking forward to meeting everyone in person and reconnecting with customers we have not seen in several months.” says Bob Heintz, President of Quality Thread & Notions. “This business climate has been challenging, but has also revealed new opportunities that we are excited to share with our customers.”
