

FOR IMMEDIATE RELEASE

SOLAR PATCH USA TO SHOWCASE UV-CURED INSTANT REPAIR PATCH AT IBEX 2026

Marine professionals can see a fast, mess-free repair solution demonstrated at Booth 1-1017

LAS VEGAS, Nev. — September 17, 2026 — Solar Patch USA Inc., a family-owned American manufacturer of UV-cured repair products, will exhibit at the International BoatBuilders' Exhibition & Conference (IBEX), October 6–8, 2026, at the Tampa Convention Center in Tampa, Florida.

Boatbuilders, marine manufacturers, distributors, supply houses, boatyards, and repair professionals are invited to visit Solar Patch USA at Booth 1-1017 to see the Solar Patch UV Instant Repair Patch in action.

Solar Patch is a fiberglass-reinforced, self-adhesive repair patch designed to create strong, permanent, and waterproof repairs on fiberglass, metal, plastic, PVC, wood, and other hard surfaces. The patch requires no mixing, measuring, or specialized application equipment. Users simply prepare the surface, peel, apply, and expose the patch to sunlight or UV light. It typically cures in approximately 5–10 minutes in direct sunlight.

“Marine repairs often require multiple materials, complicated preparation, and extended downtime,” said Dick Simon, President of Solar Patch USA. “We developed Solar Patch to give marine professionals a faster and cleaner way to complete durable repairs. IBEX is an ideal opportunity to demonstrate the product and connect with the distributors, manufacturers, and supply partners serving this industry.”

Potential marine applications include repairs to fiberglass hulls, decks, hatches, storage compartments, equipment housings, pipes, and other rigid surfaces found around boats, boatyards, marinas, and marine facilities.

Solar Patch USA will use IBEX 2026 to expand its network of wholesale distributors, marine supply houses, retailers, manufacturers, and industry partners. Qualified businesses interested in carrying Solar Patch are encouraged to meet with the company during the show.

Visit Solar Patch USA at Booth 1-1017 for a product demonstration and to discuss wholesale and distribution opportunities.
