TecNiq Introduces New Pontoon Light

The M30 Front Facing Docking Light, Newest Marine Lighting from TecNiq

Galesburg, MI – September 29, 2020 - TecNiq is excited to announce our ALL NEW M30 Series Front Facing Docking Lights. Building on the success of TecNiq's existing marine lighting options, the NEW Docking Lights utilize TecNiq's superior lens technology, high quality materials, and market leading TecSeal potting to bring you the newest addition to their marine lighting family. Each light includes an all new passive heat resistant body, as well as high powered LEDs that provide over 100,000 hours of performance. The M30's come in either a (3) LED, or (6) LED option.

The TecNiq Pontoon Docking Lights are the perfect addition to today's high-performance pontoon boats. Built to complement and accommodate most of today's boat designs, these docking lights will help boaters be seen, and be safe while out on the water.

The TecNiq M30 Docking Lights are the perfect light for today's pontoon manufacturer, as well as consumers personal usage. From the (3) LED version that provides 350 Lumens, to the (6) LED version providing 700 Lumens – you get consistent, reliable lighting, time after time! For more information about TecNiq's new M30, or any of the market leading LED solutions from TecNiq, visit www.TecNiqInc.com.
