

New Bilge Pump Offers Cutting-Edge Quick-Change Technology

Johnson Pump Marine's Aqua Void Cartridge Bilge Pump provides convenience and efficiency to recreational boating

Tampa, FL, October 3, 2023 – Johnson Pump Marine, a brand of SPX FLOW, unveiled its latest offering in marine technology, the Aqua Void Cartridge Bilge Pump, featuring an industry-first quick-change motor connection that offers boaters ease and efficiency.

See more details on the Aqua Void Cartridge Bilge Pump: <https://www.spxflow.com/johnson-pump-marine/products/aqua-void-cartridge-bilge-pump>

The Aqua Void offers:

- **Unparalleled convenience:** The pump is designed with single-handed access, perfect for tight bilge spaces. It provides quick installation and removal of the pump body, along with an easy click-in basket for simple installation, cleaning or inspection.
- **Industry-first quick-change motor connection:** This feature means quick and hassle-free cartridge motor changes or capacity upgrades.
- **Enhanced efficiency and higher flow rate:** With an enhanced motor and high-flow impeller, it uses the latest technology to achieve heightened efficiency and an increased flow rate while conserving energy consumption.
- **Reliable performance under demanding conditions:** Johnson Pump Marine is renowned for industry-leading reliability. The Aqua Void features robust construction and meticulous engineering, ensuring durability and performance even in the toughest environments.

Michael Strålman, General Manager, Johnson Pump Marine: “This pump was designed with all boaters in mind. When you’re out on the water — whether it’s a lake or ocean, fishing or simply relaxing — ease, convenience and reliability are essential. We are excited to share this new bilge pump that brings all those features and more to our customers.”
