

OTTOMAN ENTERTAINMENT CADDY

Ocoee, FL – September 21, 2021 –

A popular trend in pontoon boats has been the addition of movable cooler storage ottomans. Teak Isle is excited to introduce a new line of portable caddies to be used with these ottomans, providing a convenient and attractive entertainment space to help take your ottoman to the next level.

The new patent-pending design sits securely on an ottoman to provide an ideal multi-functional surface for holding a variety of drinks and snacks. This compact unit provides space for 4 wine glasses or coffee mugs, 4 skinny cans or water bottles, a wine chiller or a 2-liter bottle of soda, 2 extra wine bottles or cups for snacks, a corkscrew, cheese knife, and 2 cell phones.

Measuring 24" W x 10" D x 12" H, the compact design is ideal for loading the tray, easily carrying it to the boat and sliding it securely onto the ottoman for safe, sturdy movement on the water. The underside of the tray has a non-skid rubber mat to prevent sliding on the upholstery.

The caddy is manufactured using King StarBoard, is available in a variety of standard colors, and can be custom designed to fit different ottoman sizes. Teak Isle's President, Pat Brown says, "There is always a need for extra space for entertaining which makes this removable ottoman entertainment caddy a great new accessory for the 2022 model year."

###

Teak Isle Mfg. is the trusted source for CNC cut OEM plastic and wood component parts for over 200 boat builders. With an engineering staff of 18 and over 300 team members running 11 CNC routers, Teak Isle works with builders from design concept to on-time delivery of high-quality custom parts. Products include cabin entry doors, laminated cabinetry, Corian countertops, access doors, bent acrylic sliding doors and King StarBoard HDPE parts.
