FOR IMMEDIATE RELEASE

Perfect Storm Technology, Inc Introduces the BOAT OF THE FUTURE (BOTF) at IBEX '23 Seminar Series: "RIDE ENGINEERING: A Multi-pronged Approach to Shock Reduction."

TAMPA, FL - [September 22, 2023] - Perfect Storm Technology, Inc., a vanguard in marine technology, is poised to unveil the Boat of the Future (BOTF) during the forthcoming IBEX event in Tampa, Florida. The virtual BOTF introduction will be held on October 3, 2023, at 4:00 PM, in Room 117 at the Tampa Convention Center.

Seminar Details:

- **Title:** RIDE ENGINEERING: A Multi-pronged Approach to Shock Reduction
- **Date:** October 3, 2023
- **Time:** 4:00 PM
- **Location:** Room 117, IBEX, Tampa, Florida

Seminar Description:

For an extended period, the marine industry has wrestled with the persistent issue of high slamming loads, causing discomfort and injury to operators and passengers. Perfect Storm Technologies, in a no-frills presentation, will scrutinize shock reduction from the point of impact when the vessel collides with waves to the propagation of destructive forces through the hull's material structure, cockpit, pilothouse, seats, helm station, and their ultimate effects on human occupants.

The Boat of the Future (BOTF) serves as a pragmatic case study, aimed at enhancing the specifications employed by our armed forces. Despite the stagnation of high-performance pursuit vessel specifications, this world renown group believes in the potential for substantial improvement. Perfect Storm's team of experts is determined to reshape the landscape of high-performance pursuit vessels.

Distinguished Nautical Experts:

- **Prediction:** Naethan Eagles, TotalSim US, info@totalsim.us
- **Hullform:** Scott Porta, Porta Performance, Scott@PortaProducts.com
- **Structure:** Scott Lewit, Structural Composites, SLewit@StructuralComposites.com
- **Surface:** Rich Kase, Skydex, RKase@Skydex.com
- **Power:** Scott Porta, Porta Products, Info@PortaProducts.com
- **Seat & Helm:** Ron Carpenter, Ullman Dynamics USA, Ron.Carpenter@UllmanDynamics.com
- **Human Factors:** Ron Carpenter, TMS Group, Ronald.Carpenter@tmsgroupusa.com
- **AI Predictive:** Karl Birgir Björnsson, Hefring Marine, KarlBirgir@HefringMarine.com

Attendees will have an up close and personal opportunity to glean insights from these industry stalwarts, gaining a utilitarian perspective on the latest developments in ride engineering and shock reduction methodologies.
