

PRESS RELEASE

September 2021

Scott Bader North America exhibiting at IBEX 2021

Scott Bader North America are excited to return to exhibiting in person at IBEX 2021 where they will be showcasing their market leading range of adhesives and advanced composites.

September 28th – 30th in Tampa, Florida you will find the Scott Bader team on Booth 3-1041, where they are looking forward to welcoming visitors to discuss Scott Bader's Crestabond® and Crestomer® structural adhesives, Crestafix® bonding pastes, Crestapol® urethane acrylate resins and Crestamould® tooling systems.

The Crestapol® range of high-performance urethane acrylate resins will be a key product focus at IBEX 2021 with particular emphasis on the fire retardant (FR) properties of filled Crestapol resins and Crystic® FR gelcoats and intumescent topcoats. Crestapol resins can be processed by open molding, infusion, RTM and pultrusion, even when heavily ATH filled (up to 200phr).

Representatives from the Scott Bader technical and commercial team will be available at Booth 3-1041 to answer questions about their high performance products available for advanced composite applications.

The Scott Bader North American team look forward to seeing you there!
