

FOLDING ENTERTAINMENT TABLE AND STORAGE DRAWER COMBO

Ocoee, FL – September 21, 2020 - Teak Isle is excited to introduce a new design combining their award-winning folding table and their popular lounge back drawer units.

The patented folding table easily lifts and locks into place when needed or can be folded down out of the way when not in use. This table and drawer combo provides usable space in an area that was previously inaccessible or can replace an often under-used changing station. “We found that people loved both our folding table and drawer units so we found a way to combine them so they didn’t have to choose,” said Pat Brown, President of Teak Isle. Tables are available in a variety of King StarBoard colors to better coordinate with upholstery and are manufactured using stainless steel hardware. Teak Isle will fully customize this part to fit the specific space requirements for each boat model.

An optional portable table topper is designed to securely attach to the folding table to hold a wine chiller, wine or soda bottles, wine glasses and cup holders including adaptable skinny can inserts. The topper also includes space for a serving platter, corkscrew and cheese knife. Pat says, “The always needed extra space for entertaining and storage makes this folding table, drawer, and party tray a great new accessory for 2021.”

###

Teak Isle Mfg. is the trusted source for CNC cut OEM plastic and wood component parts for over 200 boat builders. With an engineering staff of 18 and over 250 team members running 9 CNC routers, Teak Isle works with builders from design concept to on-time delivery of high-quality custom parts.
