TiMOTION USA to Supply Marine Motion Solutions at IBEX 2022

TiMOTION USA will exhibit at IBEX 2022 to showcase innovative electric linear actuator applications for the marine handling markets at Booth 3-121

CHARLOTTE, NC – August 17, 2022 – [TiMOTION, Inc.](#), a global supplier of electric linear actuators and related accessories, announces its North American division, TiMOTION USA, will be exhibiting at IBEX 2022, scheduled for September 27-29 at the Tampa Convention Center, Tampa. At Booth 3-121, TiMOTION USA's Marine Motion specialists will be showcasing its marine handling solutions, including TiMOTION's new MA3 industrial electric linear actuator.

The [MA3](#) is the most powerful actuator in TiMOTION's MA series that affords a maximum 10,000N force (push/pull). It is specifically designed for heavy-duty applications and harsh working environments that require durability.

Powered by METSTRADE, the nation's largest technical trade event for marine industry professionals, IBEX 2022 is a premier international event for professionals working in the marine technologies, tools, and material industries.

Baxter S. Hufham, North American Sales Manager, TiMOTION USA, said, "IBEX is a staple event for manufacturing professionals to meet leading firms and industry innovators. We invite and encourage participating original equipment manufacturers (OEMs) of all sizes to meet with our electric linear actuation technology representatives to discuss their needs and learn how TiMOTION's Industrial Motion solutions can help."

Founded in 2005, TiMOTION has over 2,000 employees working together across nine (9) manufacturing facilities in Southern China, Taiwan, Europe, and the United States. In 2013, TiMOTION established a North American market presence by opening a division in Charlotte, NC., TiMOTION USA.

To schedule a meeting with a TiMOTION USA sales representative at IBEX 2022 or to learn more about TiMOTION's electric linear actuator technology solutions for OEMs, contact us at sales.us@timotion.com.

About TiMOTION

TiMOTION is a global, industry-leading provider of electric linear actuators, lift columns, controls & electronics, and supporting products. Founded in Taiwan in 2005, TiMOTION specializes in innovative solutions to help industrial, furniture, ergo, and medical equipment manufacturers provide the best possible solutions to their customers. Located in Charlotte, NC, TiMOTION USA is the North American division of TiMOTION. Established in 2013, TiMOTION USA works primarily with original equipment manufacturers (OEMs) throughout the U.S., Canada, and Mexico. For more information, call 1+704-708-6924, or visit:
