## **TRAC Ecological Products To View At IBEX 2020 Online Experience, September 29 – October 2**

FORT LAUDERDALE, FLORIDA (USA) - TRAC Ecological will feature three of its best-selling products in its virtual booth during the IBEX Online Experience next week.

### **Barnacle Buster™ Marine Growth Remover**

For more than 30 years, Barnacle Buster™ from TRAC Ecological has been the #1 selling marine descaler. Barnacle Buster is a safe, non-toxic and biodegradable marine growth remover specifically formulated to meet an industry wide need for fast, cost effective alternatives to mechanical cleaning of seawater cooled equipment.

Barnacle Buster™ can be safely re-circulated through seawater cooling systems, dissolving barnacles, zebra mussels, calcium, rust, lime & all other mineral deposits. Most applications can be completed within 4 hours. Available in both concentrated and pre-mixed solutions: Quart, one-gallon, five-gallon, or 55 gallon containers; as well as a 250 gallon tote tank.

More product info: <https://trac-online.com/product/barnacle-buster-concentrate>

### Port-O-Flush Jr.™ Compact Flushing Unit

A powerful tool packaged into a five-gallon bucket, our Port-O-Flush Jr.™ is the smallest flushing unit available on the market. It provides portability and versatility while still efficiently handling small to medium size engines, heat exchangers, and air conditioning & refrigeration systems.

For the do-it-yourself boat owner, Port-O-Flush Jr.™ is extremely simple to use to cure engine overheating, clogged pipes and poor heat transfer on AC & refrigeration.

More info: <https://trac-online.com/product/port-o-flush-jr>

### FLUSHcaps™

Available in three sizes to fit any GROCO ARG Strainer, FLUSHcaps™ make descaling, fresh water flushing and winterizing raw water-cooled equipment a snap.

A bonus - temporarily replacing an existing strainer cap with a FLUSHcap™ allows you to easily connect a TRAC Port-O-Flush Jr.® and descale raw water-cooled equipment with TRAC's Barnacle Buster®.
