Toss your old bungees and discover The Better Bungee™ The Better Bungee™ Offers A Safer, Stronger, Better Bungee for All Applications

2018- Zionsville, PA – The Better Bungee™ offers consumers the most durable, top-of-the-line tie downs that outperform all other bungees on the market. Bungee cords and straps are used every day from inside homes and garages, to outdoor use in camping, moving, tailgating, on RVs, ATVs, snowmobiles, to name a few. Made to handle every application, The Better Bungee™ manufactures all their products with their proprietary polyurethane, that will not crack, break, or become brittle, is virtually weightless and environmentally friendly. The cords and straps that offer a super strong nylon hook are molded into the material to create a one-piece strap. The ends will not pull out and are non-marring. The Better Bungee™ products are made to withstand extreme temperatures and weather conditions, are resistant to oil, diesel fuel, salt water and most household chemicals. The variety of straps, cords, ropes, lengths, colors and accessories make this product one of a kind. The Better Bungee™ products come with a lifetime warranty and are made in the USA. www.thebetterbungee.com

The Better Bungee™ Product Offerings:

NEW! The Better Bungee™ Bungee Balls are made of our proprietary polyurethane and available in lengths of 6", 9", 12". These super strong bungees balls can be used with tarps, to bundle pipes or wrap up hoses and much more. They are designed to use alone or connect with other bungees.

The Better Bungee™ Heavy Duty Strap is available with a choice of galvanized steel hooks, stainless steel hooks and over-molded nylon hooks, and lengths of 12", 18", 24", and 36". This product stretches to twice its length.

The Better Bungee™ Cord is a medium duty one-piece cord with over-molded super strong, non-marring nylon hook ends. It is available in lengths of 12", 18", 24". This product stretches to twice its length.

The Synch Cord is medium duty; has a loop on one end and an over-molded super strong nylon hook on the other. It is available in 30" and is perfect for applications where 2 hooks just won't work. It can make an anchor point easily by wrapping the cord around a bar or through a hole; then put the hook through the loop, pull tight then secure the hook end.

The Slotted Strap is versatile and heavy duty, will adjust from lengths of 12" to 36" and has either 2 over-molded super strong non-marring nylon ends or two galvanized hooks. It can be used as an all in one tie down or for storage and organization. Hook and hang garage storage and sports equipment.

The Better Bungee™, Build A Bungee™ kit comes with rope or strap. This is the answer to any custom bungee cord needs. Rope is available in 2 sizes: 1/4" or 5/16" and non-marring adjustable hook ends for building customized bungee cords. Add our super strong O-ring to create custom cargo. Perfect to have on hand as a replacement for any shock cord application. Great for emergency preparedness. Keep a kit in your truck, RV, boat or other vehicle.
