OEM Specific Tender Chocks by- VersaChock

VersaChock [OEM tender chocks](#) are custom made to the exact OEM specifications (drawings usually available from most OEM manufacturers). Made to order with the **super quick turnaround time!** Chocks are made of high-quality HDPE plastic that will stand up to the harsh marine environment for many years. Hull cushioning strips help protect the hull. Chocks install with 4 exclusive threaded deck plates and eyebolts, allowing the chocks to be removed in seconds without the use of any tools for a **TRIP FREE deck!**
