NEW SIROCCO II ELITE FAN SURPASSES EXPECTATIONS

Many boat and caravan owners choose the cooling comfort of a fan over air conditioning due to the vastly reduced cost, noise and energy consumption. The new Sirocco II Elite from SEEKER by Caframo surpasses the expectations of what a fan can do by offering 360° directional airflow of up to a massive 6.8 cubic meters per minute. Plus, its new brushless motor boasts a 20,000-hour service life—over two years of non-stop, 24/7 use.

Made in Canada, the Sirocco II Elite features four speed settings and four convenient timer presets. Its gimbaled design provides unrestricted directional airflow. Combined, the innovative cabin fan delivers cooling precisely where and for as long as it's needed.

The Sirocco II Elite's powerful brushless motor lasts up to four times longer and produces 30% more airflow on each speed setting. It auto-senses between 12V and 24V and has a minimal power draw for extended use.

Available in white or black, it features a stainless steel grille and brushed center badge. Compact at 9mm L x 241mm W x 305mm H and weighing only 1.2kg, it's ideal for boats, caravans, and other vehicles where airflow is needed. The Sirocco II Elite from SEEKER by Caframo backed by a four-year manufacturer's warranty.
