SUPER SLICK SEALANT SMOOTHER DELIVERS A PROFESSIONAL FINISH

Anyone who has used caulk knows the most difficult step is often smoothing the bead for an optimal seal and neat appearance. Super Slick Sealant Smoother™ from BoatLIFE aids in finger tooling a wide range of sealants for a professional finish, then easily removing residue from fingertips.

Super Slick Sealant Smoother is ideal for use with silicone, polyurethane, polysulfide, latex rubber and acrylic-based silicones. It won't harm the surrounding surface, nor leave an unsightly residue.

Easy to use, Super Slick Sealant Smoother lubricates the bead, allowing the applicator to achieve a smooth, even bead. A one fl. oz. bottle of BoatLIFE Super Slick Sealant Smoother costs \$13.60; four fl. oz. is \$23.22; and 16 fl. oz. is \$32.04.

BoatLIFE offers a wide range of premium quality sealants. They cure to a firm, waterproof, non-shrinking seal, making them an ideal solution for bedding teak decks, hardware, ports and hatches, thru-hull fittings and underwater seams.
