RACING AND RECREATIONAL PWC OWNERS CHOOSE LIQUI MOLY

PWC racers understand the winning advantages of using premium-quality engine products. With LIQUI MOLY Marine PWC Oil and Marine 4T Shooter, recreational riders can share in the performance benefits while keeping their four-stroke personal watercraft in top-running condition.

Fully synthetic LIQUI MOLY Marine PWC Oil SAE 10W-40 is formulated for PWC with or without wet clutches. Safe to use with superchargers and turbochargers, it contains proprietary additives to ensure maximum engine performance, lubricity and wear protection. It meets or exceeds the requirements and specifications of major manufacturers.

Poured into the fuel tank, LIQUI MOLY Marine 4T Shooter cleans carbon deposits from the carburetor, injectors, plugs, valves and combustion chambers, and optimizes atomization. With regular use, it protects internal engine parts against corrosion and premature wear.

LIQUI MOLY is no stranger to PWC racing. Title sponsor of Pro Watercross and technical partner to Hearn Motorsports, its high-performance products are used by winning racers worldwide.

A 200ml can of LIQUI MOLY Marine 4T Shooter treats 18 gal. of gasoline and has an MSRP of \$10.99. A one-liter container of Marine PWC Oil SAE 10W-40 is \$11.99.
