TECNIQ DEBUTS WATERPROOF LED STEP ACCENT LIGHT

When working in reduced light, it's important to see what's underfoot, especially while underway. TecNiq, the North American leader in LED lighting for extreme environments, debuts the E02 Step Accent Light. Completely waterproof with a 90° projection, it's perfect for illuminating deck areas, passageways, steps and stairs, and as an accent or task light. Guaranteed for life, it has an unbeatable price point.

The high-performance E02 Step Accent Light is made to last. It boasts a rugged design using UV- and impact-resistant polycarbonate. With TecNiq's TecSeal urethane potting, it's guaranteed waterproof to IP68 standards. Available in white, blue, red, and green LED colors, it comes with a durable black cover. The lamp offers an impressive 100,000-hour service life.

The compact 1.77" L x 0.95" W E02 Step Accent Light is easy to install. Surface mounted, it requires a 3/4" hole and two #8 screws. Pigtail wire leads provide fast connection.

TecNiq's E02 Step Accent Light is ideal for recreational, fishing and commercial boats, RVs, work trucks, heavy machinery and emergency response vehicles. It has an MSRP of \$7.
